GEHL INTRODUCES THE NEW AVANTAGE™ AL20DX SERIES II COMPACT UTILITY LOADER

WEST BEND, WISCONSIN – Gehl Company, a leading manufacturer of compact construction equipment and agriculture equipment headquartered in West Bend, Wisconsin, announces the new AVANTAGE™ AL20DX Series II Compact Utility Loader. The AL20DX Series II Loader offers the comfort and security of a sit-down loader, along with the performance and maneuverability associated with an articulated loader.

The AL20DX Series II has an impressive package of standard equipment, including a telescopic liftarm, an efficient drive system with direct-drive hydraulic motors, articulated steering, superior performance from a dual pump auxiliary hydraulic system, a hydraulic oil cooler, joystick lift and tilt control, and a ROPS-certified roll-bar. The ergonomically enhanced operator's compartment features sit-down comfort in a deluxe suspension seat, ample legroom and simple control design and layout.

The AL20DX Series II features a 20-horsepower Kubota diesel engine, SAE rated operating load of 700 lbs. and 20 inches of boom extension provided by the telescopic liftarm feature.

With the optional Tool System Trailer, users can select the attachments they need to be available to them on the jobsite. With its exclusive "magic ramp" loading system, there are no backbreaking loading ramps to move around. Plus, with the standard quick-attach bracket, the operator can simply drive up to the desired attachment, line up the mounting plate, secure the attachment and drive away.

For more information contact your nearest Gehl Skid Loader dealer, visit the Gehl website at www.gehl.com, call our literature hotline at 800-628-0491, or mail your requests to: Gehl Marketing Services, 143 Water Street, West Bend, WI 53095 USA.
